

The reporting tool every office products dealer has been waiting for has arrived.....

Announcing the GoldLink AdminPack

Managing a business today, you need critical information to stay on top of all the priorities. The **GoldLink Admin Pack** was designed with the busy manager in mind. It can quickly give both managers and salespeople the critical information they need to succeed in today's fast paced marketplace.

Tapping into the data that already exists in GoldMine has historically been difficult, expensive and fraught with obstacles and limitations. The GoldLink Admin Pack finally allows managers and salespeople to quickly get easy-to-understand views of the information they always knew existed but had difficulties extracting.

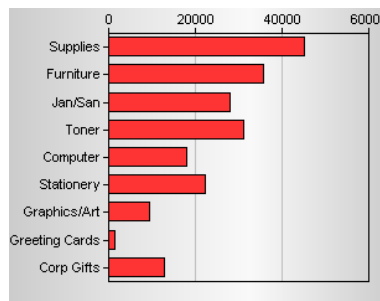

How easy is it to get this information with the Admin Pack? Ever checked email? It's that easy. In fact, the Admin Pack sends the information straight to your inbox each morning. Sip your coffee, view your sales team's performance. No more worrying about *how* to get the data, it has now arrived.

Sample at-a-glance 'Snippet' information you can view with the AdminPack:

- History
- Top Active Customers
- Account Acquisition and Sales Summary
- Lead Conversions
- Result Code Summary
- Meeting Potential
- Calendar
- Group Sales Figures
- Accounts in Jeopardy
- Monthly Breakdown
- Annual Sales Projections
- Never Lose Contact
- GoldSync Summary

No other solution on the market today can come close to the Admin Pack's ease-of-use, focus on busy manager's data needs and 'no-brainer' pricing. It's also the only Sales Management tool which combines sales team activity analysis with actual sales analysis, designed for GoldMine users.
